CHAPTER 1

Harry Potter Fever

The police held back a screaming mob. Some people were even crying. Camera lights flashed. A line of people snaked through the streets. They were attempting to get onto Platform 9 3/4 at King's Cross Station in London. Fans and members of the press boarded a steam train disguised as Hogwarts's Express. Author J.K. Rowling waved out the window to the hundreds who couldn't get on. Steam rose from the red train as it chugged away.

A WORLD OF WIZARDRY

It was July 8, 2000. J.K. Rowling's publisher was promoting the release of *Harry Potter and the Goblet of Fire*. This book was the fourth in the blockbuster Harry Potter series.

The frenzy around Harry Potter's world had grown since the first book's release in 1997. Fans wanted to know more. What would happen to Harry, Hermione, and Ron? How would the series—that would take 17 years of J.K. Rowling's life to write—end? How did this wizard world even begin? It started with imagination. It grew from a writer's life full of challenges.
